Available

Call your Vet-A-Mix distributor for immediate delivery in any dosage strength.

Effective

Two decades of successful treatment with excellent content uniformity.

Stable

Superior stability maintains potency through our guaranteed expiry period.

Convenient

Nine dosage strengths in industry-familiar colored caplets. 120-count dispensing size and 28-count strip packs require no repackaging.

Economical

Save inventory dollars with 120-count size and 28-count strip packs. For more savings, choose competitively priced 1,000-count bottles.

Thyro-Tabs brand of levothyroxine sodium. SUMMARY: Read package insert for full disclosure. INDICATIONS: For use in canine patients for correction of conditions associated with low circulating thyroid hormone (hypothyroidism). DOSAGE: The initial recommended daily dose is 0.05 to 0.1mg/10 lb. (4.5 kg) body weight. Dosage is then adjusted by monitoring the T4 blood levels of the dog every four weeks until an adequate maintenance dose is established. In most dogs, with the exception of the toy breeds, this is usually in the range of 0.2 mg (200 ug) to 0.8 mg (800 ug) total daily dose. ADMINISTRATION: Thyro-Tabs caplets may be administered orally or placed in pet's food. WARNING: Administer with caution to animals with clinically significant heart disease, hypertension or other complications for which a sharply increased metabolic rate might prove hazardous. Use in pregnant bitches has not been evaluated. CAUTION: Federal law restricts this drug to use by or on the order of a licensed veterinarian. SUPPLIED: Thyro-Tabs: 0.1 mg, 0.2 mg, 0.3 mg, 0.4 mg, 0.5 mg, 0.6 mg, 0.7 mg, 0.8 mg, 1.0 mg in 28-count strip packs, bottles of 120 and 1,000.
